

**Agent property tours**

<b>Agent delivers all audio</b>	Some agents are totally comfortable delivering an interesting monologue about a property and its attributes.	\$ 299
<b>Agent audio interspersed with videographer inquiries</b>	Often more compelling, a conversation between videographer (not seen) and agent lends interest to discussion of the home, keeps the conversation flowing, and helps identify attributes that may otherwise be omitted	299
<b>Walkthrough without agent</b>	Some agents are interested in video, but aren't comfortable on camera or just don't have the time. YoChicago will tour and comment on a property without your participation.	299

Agent property tours are filmed in a single shoot and edited only once. While shooting, subjects can direct us on what to edit out – and we'll do retakes when errors are made. One-time editing is what makes our videos affordable – and more 'real' and appealing.

Some videos may include photo stills of various community attributes, if mentioned in the video. Images must be provided by the agent or already exist in YoChicago's vast image file.

Multiple videos by a single agent may qualify for volume pricing.
